

VICONNECT PRO

Connecting sustainably and economically

ViConnect Pro offers the most sought-after product benefits in a particularly attractive and economical package. Together with the complete range of timeless design flush plates and retrofit options of the ViConnect collection, ViConnect Pro offers the reliable and retrofittable complete solution from a single source.

Installation systems from Villeroy & Boch

- + Installation system for WCs
- + Dry-wall element

Technical advantages

- + Slim frame with 450 mm width, height 1120 mm
- + 30x30 mm square hollow profile, powder coated
- + Condensation water insulation up to the height of the water level
- + Integrated vertical power struts for secure installation of all wall-hung WCs (with SupraFix 3.0, among others)
- + Intuitive and quick installation of the flush plate thanks to innovative cable technology
- + Easy retrofitting thanks to cable technology, e.g. hygienic flushing or ViConnect ProActive+ flush plate
- + Adjustable feet allow optimal height adjustment
- + Swivel system feet for integration into stud walls
- + Bulkhead for quick and easy adjustment of flush volume
- + Replacement of EPS with cardboard installation box

Known Villeroy & Boch quality

- + Safest choice for combination with Villeroy & Boch ceramics thanks to regular internal product tests and optimized interfaces
- + All products "Made in Germany"
- + Extended warranty coverage 25-year aftermarket spare parts warranty
